Freshers' Fair News from Glasgow University Labour Club

Labour says: No to the SNP drink ban plan

Glasgow Labour Club has slammed the SNP Government plans to ban all students aged 18-21 from purchasing alcohol in any off-sales within Scotland.

Joining with local MSP, Pauline McNeill and Ann McKechin MP who represent thousands of Glasgow University students, **Glasgow Labour Club called on the SNP to drop this ridiculous proposal and to think again:**

"This proposal is a gimmick. There is no need for this arbitrary attack on the adult entitlements of young people in Scotland. We know that the vast majority of young people are responsible and that binge drinking is a huge problem which must be tackled in every age group. Banning whole sections of society is simply not the answer.

The SNP seem to want to treat all young adults like criminals. Glasgow Labour Club says a heavy drinking culture requires coherent health education policies, not a return to failed prohibition laws.

➡ **If you want to support our petition calling on the SNP to think again and offer serious proposals which can end binge drinking, please sign the petition at the Glasgow Labour Club stall.**

Labour club co-chair Patrick McGlinchey with Ann and Pauline signing the petition.
