
S3M-02775 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Gael Power - BBC Alba, Publication of First Viewing Figures and Freeview—

That the Parliament welcomes publication of the first viewing figures for BBC Alba of over 610,000, which is substantially larger than the audience of 250,000 that the BBC wanted to attract; believes that this is a good indication of the future success of the channel and congratulates BBC Alba for its variety and originality in programming, for example showing the Scotland versus Russia women's football match; is concerned that BBC Alba is only available to those with subscriptions to Sky, Freesat and Virgin Media, but not on Freeview, the most popular digital system; further believes that the exclusion of BBC Alba from Freeview denies many Gaelic speakers, and those with an interest, a chance to view the channel and also to be included in the viewing figures, and calls on the BBC to address access to Freeview sooner than 2010 and to establish how many viewers are unable to view the channel but would if Freeview were available.

S3M-01791 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): The Royal Scottish Academy of Music and Drama— That the Parliament recognises the value and contribution of the Royal Scottish Academy of Music and Drama (RSAMD) in Glasgow to the arts in Scotland and further afield; notes that the RSAMD is Scotland's only national conservatoire of music and drama and a recognised world-class institution producing famous alumni, including the current Dr Who, David Tennant, and acclaimed actors Alan Cumming, James McAvoy, Bill Paterson and Daniella Nardini, as well as renowned musicians, singers, composers and conductors; further notes that the academy has ensured that students have benefited from the high standard of one-on-one tuition which conservatoire teaching provides, despite the fact that drama courses have not been funded by the Scottish Higher Education Funding Council to conservatoire level; is concerned that this historic underfunding has finally come to a head and is leading to a restructuring exercise among teaching staff which threatens the quality of teaching at the academy, including major changes to staff contracts and a failure to rule out compulsory redundancies, and calls on the Scottish Government to fund the current £600,000 gap and work with the funding council to ensure that drama and music courses are both funded to conservatoire level to ensure that Scotland remains at the centre of international arts provision.

S3M-01369 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): The Continuing Humanitarian Crisis in the Gaza Strip— That the Parliament expresses its continuing concern about the ongoing blockade of Gaza and the Israeli Government's decision to begin reducing the electricity supply to 1.5 million Palestinians, including children and innocent civilians, many of whom already live in poverty, 80% of whom are dependent on food aid and 55% of whom are without employment; notes that the situation continues despite warnings from the United States and others against a worsening of the humanitarian situation of the civilian population in Gaza; further notes that human rights groups working in the region argue that the cut in power supplies along with the virtual closure of much of Gaza's perimeter by Israel violates international law and believes that this amounts to collective punishment of the Palestinian peoples, and therefore calls on the international community to respond urgently to this humanitarian crisis at the same time as working for a peaceful, just and lasting solution for all Palestinians and Israelis.

S3M-01083 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Brick by Brick: A Tenancy Deposit Scheme for Scotland—

That the Parliament notes the publication of the latest National Union of Students Scotland’s report, *Brick by Brick: the state of student housing in Scotland 2007*, which draws attention to the one-third of Scottish students who lose their deposits on leaving private accommodation; notes that many students, who may rely on the return of this deposit to pay upfront rent for their next property, believe that their deposits have been withheld unfairly and expresses concern that the withholding of deposits unfairly can lead to hardship and ultimately homelessness; further notes the tenancy deposit protection scheme in operation in England and Wales which ensures protection for both landlords and students, and calls on the Scottish Government to engage with NUS Scotland with a view to implementing a similar scheme for Scotland.

S3M-00399 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Getting the Balance Right in Glasgow’s West End— That the Parliament notes the vibrancy and diversity of Glasgow’s West End as one of Scotland’s most important cultural and conservation districts and the opportunity it presents to showcase the best of Glasgow’s regeneration as a successful world city, but expresses concern at the proliferation of late licences in the area that are already affecting quality of life for residents; notes with concern the latest proposal from G1 Group for a night club as part of a development at Glasgow’s Botanic Gardens which has attracted widescale opposition from local communities and which, if granted, would have a serious impact on local people, threatening the sustainability of the West End as a place to live, increasing noise and public disorder and putting further pressure on inadequate transport facilities, and calls on Glasgow City Council to review its licensing policy in relation to Glasgow’s West End and reject any application for a late licence or night club at the Botanic Gardens.

S3M-00213 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Affordable Housing for All— That the Parliament reaffirms its commitment to making housing affordable for all; notes that, despite increases in funding over the last 10 years and limited reform of the right to buy, many families living in overcrowded accommodation are currently waiting years for suitable offers from social landlords; believes that there is a severe shortage of housing for social rent in some areas, such as in the west end of Glasgow and other high-demand areas where housing provision is driven by developers' desire to provide only high-return accommodation, resulting in families and individuals being forced out of areas where they have a strong family or community connection; further notes that there are no legal requirements on local authorities or any other agencies to ensure a sustainable housing mix that would include affordable housing to both buy and rent, and calls on

Scottish ministers to examine urgently affordable housing policy in order to ensure the availability of affordable homes in every part of Scotland.

S2M-04797 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): One Planet Living— That the Parliament acknowledges that, based on the average ecological footprint of current lifestyles in Scotland, if everyone in the world lived this way we would need three planets to survive; recognises that this cannot be sustainable and that moving towards “one planet living” is the only solution; warmly welcomes the constructive WWF Scotland package which promotes simple ways for each individual and government to reduce their footprint and move towards “one planet living”; recognises that in areas like food, transport and energy we can all make significant reductions to our footprint just by making different choices like buying local, fresh, seasonal, organic, fair trade food when we can, and notes that these choices are not only better for us, but better for the planet and the Scottish economy.

**S2M-04577# Pauline McNeill (Glasgow Kelvin) (Scottish Labour):
Passengers Before Profits - Greater Accountability in Public Transport—**

That the Parliament reiterates its strong view that decent local bus services are vital to all Scotland's communities and its belief that such services are integral to cutting road congestion and safeguarding the environment; welcomes the significant investment in bus infrastructure, including better terminuses, priority bus lanes and fast track traffic management systems which have received Scottish Executive support throughout Scotland; expresses significant concern that withdrawal of services is continuing resulting in, for example, a much poorer after-hours service in Glasgow, undermining investment and attempts to deliver more integrated and accessible health care and other public services, as well as leaving many areas of both urban and rural Scotland without adequate services, and believes that the Executive and Transport Scotland, in return for the increased investment, should ensure greater accountability of the bus industry for services across Scotland, should undertake speedily a review of how quality bus partnerships are operating and should consider seriously all possible options which could prevent the loss or absence of vital services, including new and greater forms of regulation such as franchise agreements or allowing the new Regional Transport Partnerships the power to determine routes and timetables, so as to guarantee all Scottish communities the bus links which they need and deserve.

S2M-04566 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Barnardo's and Support for Children Abused Through Prostitution— That the Parliament notes that a long-term study has been carried out by Barnardo's into its work with children who have been exploited for sex or groomed for abuse through prostitution; understands that the research indicates that early intervention in the lives of these young people reduces their risk of exploitation and helps them achieve positive changes in their lives; commends Barnardo's Glasgow Street Team for its work supporting children and young people at risk of sexual exploitation but is concerned that such support depends more on geography than need, and looks forward to local authorities across Scotland developing the protocols for working with young people at risk of sexual exploitation, as called for in the Scottish Executive's 2003 strategy on vulnerable children.

S2M-04455 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Ban on Dropping-Off at Glasgow Airport— That the Parliament notes with concern the proposals by British Airports Authority (BAA) which include a ban on cars and certain taxis from dropping-off passengers immediately outside the Glasgow Airport terminal; further notes the strong public reaction to this proposal; is concerned that this will impact on ordinary passengers and business interests; believes that this would not show Glasgow city and

surrounding areas in a good light if passengers are so inconvenienced compared with other airports on pick-up and departure; is not convinced that this proposal is likely to encourage greater use of public transport; believes that a public authority would be required to at least consult on such radical proposals; further believes that the charges proposed are unreasonable, and calls on BAA to withdraw these proposals and for the Scottish Executive to consider the impact which this will have on the image of Scotland and its tourism, leisure and business interests.

S2M-04429 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Action on Ticket Touting— That the Parliament supports the campaign initiated by DF Concerts to prohibit the unauthorised resale of tickets for concerts and events; notes that ticket touting is extremely prevalent and that many unofficial outlets are guilty of huge mark-ups on a ticket's face value, for example at events like T in the Park or major UK tours; condemns the exploitation of concert goers and music fans; notes that there is a particular effect upon young people who are often more likely to be persuaded into paying prices which they may not be able to afford; further notes the disgraceful actions of Get Me Tickets Ltd whose recent sale of non-existent tickets resulted in 200 young people being stranded outside a venue; supports the work of the Secretaries of State for Culture, Media and Sport and for Trade and Industry who aim to protect the public from this exploitation, and calls on the Scottish Executive to investigate how it can better support legitimate events promoters and work with the UK Government to protect Scotland's events and concert goers.

humanitarian assistance measures required to address the tragic lack of hospital resources and supplies in both territories; recognises that the freezing of foreign aid since January 2006 has greatly diminished the ability of the Palestinian Authority to pay over 165,000 public sector employees; notes that 25% of West Bank and Gaza residents depend on Palestinian Authority wages for their livelihoods, and therefore opposes the continued withholding of crucial tax and customs revenues from the authority.

congratulates the Scottish Executive for its commitment to and investment in both elite and community sports facilities but notes with concern the threat to Dowanhill Lawn Tennis Club in the west end of Glasgow which was set up by way of a public trust to the benefit of the people of Dowanhill; condemns the actions of the club committee, many members of which do not live locally, in refusing membership to local families in order to ease the sale to a developer for the creation of flats; calls on the Executive to consider expanding the powers of the Lord Advocate, or other appropriate body, to protect the beneficiaries of a public trust; notes the current lack of remedies available to beneficiaries who, as in the case of small community groups, are not able to draw on considerable financial resources; calls on the Scottish Law Commission to review the law of trust and ensure that there is an affordable mechanism to challenge breach of trust, and finally requests that Tennis Scotland and **sportscotland** lend their support to the Dowanhill Tennis Action Group's campaign to ensure that the Dowanhill site is preserved for the recreational use for which it was originally bequeathed and not exploited for the financial benefit of the few.

That the Parliament warmly welcomes the official opening by Her Royal Highness the Princess Royal of the British Heart Foundation (BHF) Glasgow Cardiovascular Research Centre at the University of Glasgow on 25 April 2006; congratulates the BHF and the university for co-ordinating a fundraising effort that generated £12 million in donations from more than 1,200 donors, including a core gift of £5 million from the BHF; notes that the establishment of the centre will bring together numerous diverse areas of cardiovascular research in one world-leading facility in Glasgow; remains aware that, in spite of the significant progress that has been made in reducing premature mortality from heart and circulatory disease in Scotland in the last decade, the west of Scotland still has a disproportionately high level of premature death associated with these conditions, especially in its most deprived communities; is encouraged that the presence of the centre in Glasgow will position the city as a crucial and integral part of finding solutions to tackle coronary heart disease as a cause of premature death in the west of Scotland and throughout Scotland, the United Kingdom and the world, and wishes Centre Director, Professor Anna Dominiczak, and her team every success for the future.

S2M-04175 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Anti-Trades Union Practices at Asda Wal-Mart—

That the Parliament condemns the anti-trades union practices of Asda Wal-Mart which has been fined £850,000 for offering employees a pay rise to give up union rights at a distribution depot; congratulates GMB Scotland on the success of its campaign on the legal right to maintain union recognition which is fundamental to our

society; expresses concern over the attempt of Asda Wal-Mart's public relations company to discredit the GMB, and reiterates that modern, growing trades unions are an important, indeed vital, part of both Scottish society and the viability and future success of Scotland's economy.

S2M-01951 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Teenage Kicks - A Tribute to John Peel for Children in Need

– That the Parliament mourns the passing of John Peel, widely regarded as singularly the most important DJ in radio history; notes that, since the 1960s, his show has been listened to by generations of music fans and musicians and that it was the one place independent music could be heard irrespective of marketing power or hype; believes that Peel was a taste-maker and trend-setter, championing punk, techno and introducing his audience to music that challenged artistic and commercial values; applauds the open door Peel provided for a flood of new talent, offering sessions to many Scottish artists as diverse as Belle and Sebastian, Degraasi, Primal Scream, Ivor Cutler, the Delgados, AC Acoustics, Bis, Mogwai, Travis, Boards of Canada, Aereogramme, Arab Strap, the Aphrodisiacs, the Jesus and Mary Chain and was instrumental in their gaining artistic or commercial success; notes that, more significantly, John Peel made bands feel important, loved new music and had the independent strength of character to resist being told what to put on his play-list; believes that his warmth and compassion will be truly missed and were such that, on occasion, he would even invite young, struggling bands to his home and cook for them; further believes that John Peel was the true spirit of free, independent radio, that he played what he loved, irrespective of commercial considerations, and that it would be tragic if this legacy of freedom was not handed down by the BBC to another presenter, and considers that MSPs should support the efforts of New Music In Scotland (NEMIS) and bands and supporters from all over Scotland to put together John Peel tribute gigs in the days running up to 19 November 2004 for Children in Need.

S2M-01870 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Gender Segregation and Modern Apprenticeships— That the Parliament welcomes the report of phase one of the Equal Opportunities Commission's (EOC) investigation into gender segregation and modern apprenticeships in Scotland; is dismayed that, almost 30 years after the Sex Discrimination Act was passed, only 1.92% of engineering workers in Scotland are female and 4% of childcare workers are male; believes that skill shortages and high numbers of vacancies in construction, plumbing and engineering could be addressed through mainstreaming gender equality in the modern apprenticeships programme; further believes that, until low pay and low status are addressed and a coherent accredited training route is established, the childcare sector will continue to maintain a massive under-representation of male workers; notes that the EOC's findings indicate significant shortcomings associated with the statistical monitoring of modern apprenticeships and an apparent difference in perspectives on the objectives of modern apprenticeships between the Scottish Executive and Scottish Enterprise; believes that until gender equality is mainstreamed into design, reporting and delivery, occupational segregation

will continue to be a key feature of the modern apprenticeships programme, and considers that the Executive and Scottish Enterprise should develop a transparent national strategy to tackle gender segregation in skills generally and modern apprenticeships in particular, explicitly including gender targets to encourage non-stereotypical choices.

S2M-01597 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Israel's Separation Wall— That the Parliament applauds the 201 MPs who have signed early day motion 407, "Israel's Separation Wall", calling on Israel to cease immediately the building of its separation wall deep within Palestinian territory; notes that the wall will be 687 km long and will leave more than 274,000 Palestinians living in 122 villages and towns either surrounded by the wall or trapped between the wall and Israel's internationally recognised borders, some even requiring permits from Israel to continue living in their own homes, and that an estimated further 400,000 Palestinians living east of the wall will be separated from their farms, jobs, markets, hospitals and schools, having severe humanitarian consequences for 30% of the entire Palestinian population in the West Bank; contrasts this with the fact that UN figures reveal that 54 Israeli settlements in the West Bank and 63% of settlers will be on the side of the wall next to Israel, giving Israel control over the richest agricultural land and the aquifer system which provides much of the West Bank's water resources; further notes that the wall is made up of concrete, razor wire and electronic fences, trenches, motion sensors, guard towers and security roads, that it costs \$4.7 million per kilometre and that it violates articles 53 and 47 of the Fourth Geneva Convention, to which Britain is a high-contracting party, which forbids the destruction of property and confinement of persons by an occupier; welcomes the decision of the International Court of Justice to open hearings into the legal consequences of the construction of the wall; further notes that, whilst Israel needs security, the wall does not follow internationally recognised borders; insists that it does not become a *de facto* border for a future Palestinian state; further notes that only a reinvigorated peace process with full international support will stop the violence on both sides, not an eight metre high wall, and calls on Her Majesty's Government to bring all available pressure to bear on Israel to cease building this wall.

S2M-01596 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Restoration of Scottish Screen Archive— That the Parliament welcomes the

£696,000 Heritage Lottery Fund award to Scottish Screen to restore around 400 hours of fragile film at risk of disintegration; notes that film to be restored includes 1896 footage of Queen Victoria at Balmoral, thought to be the first film ever shot in Scotland, and footage of life in St Kilda before evacuation, Clydebank shipping and the 1960 European Cup Final at Hampden Park; believes that historical film held in the Scottish Screen Archive is of enormous importance to the people of Scotland in documenting the social, cultural and industrial history of Scotland in the 20th century, and further welcomes plans to increase access to historic film footage to the public through the on-line catalogue and local libraries.

S2M-01352 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Palestine— That the Parliament believes that stability will not be achieved in the Middle East without a just and durable solution to the situation in Israel and Palestine; notes that, despite countless UN resolutions requiring withdrawal, the West Bank and Gaza continue to be illegally occupied by Israel; firmly believes that most Israelis and Palestinians simply want to live in peace

and freedom; asserts that it is not acceptable for Ariel Sharon to dictate to the world which parts of Palestine he is prepared to quit and which parts he wants to incorporate into Israel and to build a 30ft wall dividing Palestinian communities from essential services and facilities; condemns President Bush's backing of the Sharon plan to combine annexation of large parts of the West Bank with withdrawal from Gaza; believes that, by backing the Sharon plan, President Bush is endorsing a flagrant flouting of international law by Israel and is dismissing the right of Palestinian refugees to return to their homeland, overriding an explicit decision of the United Nations; condemns the latest illegal attack by the Israeli Defence Force (IDF) on an unarmed peaceful demonstration in Rafah which resulted in the deaths of 10 and wounded 50 people; welcomes the condemnation of this latest atrocity by the UN Security Council and the call from Kofi Annan for an immediate halt to Israeli military operations in Gaza, and further welcomes the denunciation of the IDF action by Peter Hain MP, Leader of the House of Commons.

S2M-01200 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): 10th Anniversary of Democracy in South Africa— That the Parliament congratulates the South African people and government on the 10th anniversary of a democratic South Africa; notes that, despite the threats and predictions of some, South Africa's transition from apartheid to democracy was achieved with a minimum of bloodshed; believes that this owes much to the political maturity and leadership of the liberation movement and the strength, understanding and patience of the people; further believes that the rainbow nation has become a beacon against racism for the world; specifically congratulates the South African people and government on considerable achievements since the overthrow of apartheid, including (a) water - during 2004 the 10 millionth connection to clean water over the past decade will be made, (b) sanitation - in 1994 some 22 million people had no access to clean water, today it is down to 18 million, (c) housing - 1.6 million new houses built since 1994, (d) electricity - in 1994 some 60% of South Africa's population had no access to electricity, now more than 70% have access and (e) education - in 1994 a divisive education system provided secondary education for 70%, now an integrated system covers 85%; acknowledges the terrible legacy of colonialism and apartheid which remains a huge challenge; shares the grave concern over the HIV/AIDs pandemic and the huge cost in suffering to the people of South Africa; pledges continuing solidarity in the struggle to overcome the legacy of colonialism and apartheid, especially given Britain's responsibilities; congratulates ACTSA Scotland (Action for Southern Africa, the successor to the Anti-Apartheid Movement) for the part it played in the South African people's liberation from apartheid and its continuing role to develop links and facilitate solidarity with the people of South Africa; welcomes the joint activity by Scottish and South African organisations, including local authorities, trade unions, students and churches, to build mutually beneficial contacts and activities in various spheres, including those of economic, cultural, educational and sporting activity, and considers that MSPs, the Scottish Parliament and Scottish Ministers should assist in the facilitation of these links with the people and government of South Africa.

S2M-01199# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Closure of the Queen Mother's Hospital— That the Parliament regrets Greater Glasgow NHS Board's decision of 20 April 2004 to close the Queen Mother's Hospital in Glasgow; notes that the Queen Mother's Hospital is an integral part of the Yorkhill campus model of care, deliberately co-locating specialist maternity and paediatric care and attracting world class medical and surgical expertise; further notes the proven record of excellence at Yorkhill in the development of ultrasound, innovative foetal therapy and developing a breast milk bank; believes that this service model has benefited women with difficulties in their pregnancies, sick babies and families throughout Scotland as well as providing an important general maternity service for the north west Glasgow corridor and that the hospital has been the hospital of choice for many more women in the west of Scotland for over 40 years; believes that the quality of specialist baby and maternal care services is threatened by this decision as reconfiguration may prove costly and difficult to implement; is concerned that the board has taken this decision in the face of overwhelming clinical, political and public opposition; believes that the decision was reached unfairly using inaccurate assumptions and that no other option was seriously considered, and considers that the Minister for Health and Community Care must (a) take steps to restore public confidence in consultation and decision-making processes in the NHS, (b) thoroughly review all of the factors that led to the Greater Glasgow NHS Board's decision on maternity services, (c) reject the decision to close the Queen Mother's hospital and (d) ensure that the integrated specialist care model is protected to continue to serve Scotland with the same quality of service and innovation that has been achieved over the last 40 years.

S2M-01154 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Kenny Richey, a Scot on Death Row— That the Parliament notes that Kenny Richey, a British citizen who grew up in Edinburgh, has spent 16 years on death row in the State of Ohio, despite being described by Amnesty International as a "compelling case of apparent innocence"; notes that following the case having been heard at the sixth Circuit Court of Appeals on 7 May 2003 a final decision

is expected imminently on whether he should face execution; notes that important forensic and eye witness evidence has come to light since the original verdict was reached which casts serious doubt on its safety; notes, however, that this new evidence has not been heard by a court of law, and considers that the First Minister should urge the UK Government to make direct and robust representations to the state authorities in Ohio on behalf of Kenny Richey.

S2M-01015# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Support Service for Victims of Trafficking— That the Parliament utterly condemns the international organised criminal gangs involved in the trafficking of women for sexual exploitation; opposes the deception of women from poor backgrounds into believing that they are coming to the UK for legitimate work and their coercion; is extremely concerned at the increasing numbers of trafficked women held as sex slaves in flats, saunas and massage parlours in towns and cities throughout Scotland; recognises the plight of trafficking victims who are often beaten, bound, blackmailed and forced into prostitution, are given no money and have their passports taken by the traffickers; notes with concern that women fleeing from traffickers fear death threats, violence and repercussions to both themselves and their families back home; further notes that in a raid on a Glasgow sauna in 2002 nine foreign women were believed to be working as sex slaves and that another Glasgow sauna advertised on the internet that all its women were bonded; considers that the immigration system must recognise the specific experience of trafficked women, who when returned as illegal immigrants are often met at the destination airport by traffickers to return to the same miserable trafficked life, and therefore welcomes the Scottish Executive International Women's Day announcement of £100,000 to Glasgow City Council for a pilot support service for victims of trafficking that will assess the needs of trafficked women, provide support services and collate information on trafficking.

S2M-00470# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Closure of Queen Mother's Hospital, Glasgow— That the Parliament opposes the recommendation to the Greater Glasgow NHS Board from the Maternity Working Group, chaired by Professor Margaret Reid, to close the Queen Mother's Hospital and transfer services to the Southern General and Princess Royal hospitals; believes that it makes no sense to close down a

well-functioning unit with a proven and world-renowned record of care of mothers and babies; notes that the Queen Mother's Hospital has won many awards for clinical excellence and delivers services to communities that most need the service; further notes that the expert views of Scottish paediatricians and other medical staff appear to have been ignored by the working group, particularly those that expressed the view that transporting ill babies would pose a degree of risk that is currently not necessary; believes that the prospect of closing the Queen Mother's Hospital is not just a loss to women in the west of Glasgow and west of Scotland, but crucially denies a critical service to mothers and ill babies throughout Scotland who have relied upon the close link between the Queen Mother's Hospital and the Royal Hospital for Sick Children at Yorkhill, a model of care which has catered for women expecting babies that require immediate medical attention; is concerned over the negative knock-on effect to children's services as a result of clinicians remotely serving the two retained maternity units and the uncertainty now created over the future of the Yorkhill NHS Trust following the recommendation of the Maternity Working Group to close the children's hospital in the longer term and transfer all services to the Southern General Hospital, and considers that the Greater Glasgow NHS Board should reject the recommendations of the Maternity Working Group.

**S2M-00253 Pauline McNeill (Glasgow Kelvin) (Scottish Labour):
Communication Workers Union Campaign on Remote Sourcing of Call Centre Jobs**— That the Parliament notes that the call centre industry now comprises a significant sector of the Scottish economy, that there are now over 50,000 jobs in the 250 call centres in Scotland and that 17,000 of these jobs are located in Glasgow alone; is therefore concerned at the threat to over 1,000 jobs in Glasgow by British Telecom's outsourcing of 2,000 call centre jobs from across the United Kingdom to Bangalore and New Delhi in India; considers that there is now a significant risk to jobs in the industry in Scotland from further remote sourcing by call centre operators following the example of British Telecom; notes that the Call Centre Association assesses the labour cost of English-speaking IT-literate graduates in India at 10-15% of their European counterparts, and calls on British Telecom and other call centre operators to invest in their high quality workforce in Scotland and on the Scottish Executive to continue to work through Scottish Development International to promote Scotland as a quality location for value-added high-skill call centres and protect existing call centre jobs.

S2M-00230 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Child Injury Prevention

— That the Parliament notes the extent of accidents causing injury to children and figures recorded at Yorkhill Children's Hospital in 2001 which show that 70% of injuries happen whilst playing; further notes that many such accidents are preventable; applauds the work of Dr NV Doraiswamy, accident and emergency consultant at Yorkhill Children's Hospital, and the Health Promotion Office of Greater Glasgow NHS Board on the Finger Tips safety leaflet, which highlights fingers as being amongst the most mobile parts of a child's body and, as such, vulnerable to being crushed or jammed, sometimes resulting in amputation; believes that the use of simple devices, including doorstoppers or specially insulated doorframes, can prevent such injuries in the home, in schools and in public buildings, and recognises that the Children's Hospital Injury Reporting and Prevention Programme, known as CHIRPP, can assist in raising awareness about the extent and type of accidents or injuries amongst children so that forms of prevention may be identified.

S2M-00081# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Planning Law— That the Parliament welcomes the forthcoming Planning Bill proposed by the Scottish Executive in the consultation paper *Your place, your plan: A White Paper on Public Involvement in Planning*; considers that the consultation is of extreme importance in assessing the outstanding needs to improve our planning law; believes that there is a particular need to build in greater fairness for local residents affected by planning decisions and that changes to the law should include a qualified right of appeal against decisions of the planning authority for those directly affected by a planning decision; further believes that there must be improvements in the neighbourhood notification system and a new right for objectors to receive some expert assistance to present their case; believes that, as the relevant elected representatives, MSPs should be directly notified by the Scottish Executive of planning appeals received from within their constituencies, and considers that the Executive should consider fully these changes and ensure that the process of decision making in planning is open and transparent at both local authority and Executive level.

S2M-00079# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Local Bus Routes— That the Parliament expresses concerns over powers of deregulated bus operators to alter local bus routes without prior consultation and notice to local communities; believes that it is not acceptable that profitability is put before access in such cases; is particularly concerned about the adverse effect of such changes on older people, those with disabilities and parents with young children, restricting their access to vital services and facilities; notes that the negative experience of such changes in communities such as Bromhill, Anderson and Townhead in Glasgow has resulted in community campaigns to reinstate bus services; further notes that there is currently no legal requirement for bus operators to consult members of the public on the variation of bus routes and that bus operators are reluctant to provide advance warning of changes owing to commercial sensitivities; notes that there is no statutory duty for a strategic authority to assess gaps created in bus services, and believes that measures should be considered by the Parliament to create statutory duties on bus operators to consult communities on proposed changes to local bus routes and to ensure that bus operators serve hospitals and key services, regardless of profitability.

S2M-00070# Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Maternity Services in Glasgow— That the Parliament expresses support for the unique child and maternal healthcare link at Yorkhill NHS Trust, Glasgow; notes that the Queen Mother's Hospital at Yorkhill currently caters for 3,400 births each year and is expected to take on extra births from other NHS boards; further notes that the Royal Hospital for Sick Children is a national centre of excellence in many fields of paediatric care; is concerned that the review of maternity services, announced by Greater Glasgow NHS Board on 20 May, 2003, may threaten the long-term future of both the Queen Mother's Hospital and the Royal Hospital for Sick Children; notes the vigorous campaign involving parents, the local community and elected representatives only four years ago against the proposed removal of Yorkhill NHS Trust from its existing site in the west of Glasgow, and believes that the Greater Glasgow NHS Board should consider responses to its previous consultation on the future of Yorkhill

NHS Trust and the implications of breaking up the paediatric-maternity care link alongside any new consultation to be organised on the future of maternity services in Glasgow.

S1M-03594 Pauline McNeill (Glasgow Kelvin) (Scottish Labour): Impact on Human Rights Organisations of Proposed Israeli Legislation— That the Parliament condemns the Bill tabled in the Israeli Parliament, the Knesset, on 29 October 2002 by the chair of the Israeli Government coalition, MK Zeev Boim, to secure impunity for war criminals, outlaw human rights activities, imprison human rights activists for up to ten years and destroy evidence of war crimes; notes that such a law, if passed, would forbid "the holding of investigations and writing down of results" and that any association engaging in any such activity would be liable to be disbanded, effectively closing down any action by human rights organisations to collect and then disseminate testimonies of human rights violations; expresses grave concern that such proposals would sabotage the work of Israeli human rights activists assisting international war crimes tribunals at the Hague and make illegal the courageous and conscientious actions of individual citizens of Israel, and calls

on MSPs to protest in the strongest terms to members of the Knesset against these proposed violations of human rights.

abduction, deception, blackmail, threats of violence and debt bonding; further notes that this deplorable trade forces vulnerable women and children to work as prostitutes for little or no money, fearing that co-operating with the authorities could result in reprisals against them or their families and deportation; congratulates ECPAT, Anti-Slavery International and the National Criminal Intelligence Service, who have investigated, tracked and exposed human trafficking; welcomes the UN protocol on human trafficking, the draft European Union framework decision on combating trafficking in human beings which, when finalised, will compel all member states to incorporate trafficking legislation into domestic law within two years, the prohibition of trafficking for sexual exploitation in the Nationality, Immigration and Asylum Bill, and the Scottish Executive's plans to introduce amendments at stage 2 of the Criminal Justice (Scotland) Bill in order to make trafficking of human beings both into and around Scotland a criminal offence, and believes that the matter should be fully debated and that legislative proposals to prohibit trafficking, introduce stiffer sentences for trafficking children and make provisions for the care and protection of victims of trafficking and their families, should be brought forward for its consideration.

under-21 football teams whilst the state of Israel flaunts its illegal actions against Palestinian citizens in the face of international condemnation and successive UN resolutions; notes that Israel denies young Palestinians their right to participate in international football tournaments by refusing to accept that there are two sets of people, Israelis and Palestinians, requiring two separate and independent states; is further concerned that under Israeli conscription, the under-21 team members will be serving soldiers in the Israeli Defence Force which is conducting a war of attrition against innocent Palestinian civilians in the occupied territories and which has obliterated Palestinian sports facilities, denied Palestinian football teams the right to travel to play matches, and closed down and driven tanks through Palestinian schools and universities playing fields, and calls on the Scottish Football Association to recognise the strength of opposition to this fixture and postpone the match until the day that Scottish, Israeli and Palestinian youths can play football together on an equal basis and in a spirit of friendship and recognition.

Funding Mismatch for Local Authorities– That the Parliament notes the erosion of grant income resulting in a severe funding mismatch for six local authorities, including Glasgow City Council, as identified in a specially commissioned report by Professor Midwinter of Strathclyde University; further notes that the mismatch occurred as a direct result of local government reorganisation in 1996 following which grant income fell 4.6% for these local

authorities against a Scottish average drop of 1.2%; expresses concern at the direct affect that these budgetary

restraints have had on council tax payers with a 20% increase in the affected authorities against a Scottish average of 16%; recognises that Glasgow City Council and the other five councils have since operated at a financial disadvantage; supports the call of the six local authorities and Professor Midwinter for restoration of £50 million, £32 million going to Glasgow, and considers that the Scottish Executive should rectify this mismatch immediately and ensure equitable distribution of future grant increases.
